

## Wembley Stadium connected by EE Environmental Policy

Wembley National Stadium Limited is a wholly owned subsidiary of The Football Association Limited. We are responsible for operating Wembley Stadium, which is a world-class, state-of-the-art sporting and events venue. As stated in the Wembley Vision, we are committed to demonstrating leadership in environmental sustainability. This includes managing the environmental impacts from the operation of the Stadium, integrating sustainability across all business activities and aiming for environmental best practice.

We have identified, as part of our ISO 14001 certified Environmental Management System, how activities at the Stadium interact with the environment. Significant environmental impacts at the Stadium have been categorised into six priority areas: energy, water, waste, transport, marketing & communications and procurement. Working with internal stakeholders including our contract partners (in particular catering, cleaning and waste management) and external stakeholders (including the London Borough of Brent) we have improved our environmental performance year-on-year since the opening of the Stadium. We are delighted that this has been recognised through numerous awards and certifications.

We are committed to continual improvement in environmental performance including the prevention of pollution from our activities and as a minimum, complying with all applicable environmental regulation and other requirements to which we subscribe, related to our environmental impacts. Members of the Senior Management Team, staff across the business and key stakeholders are represented at FA Group Green Team meetings. The Green Team is responsible for driving environmental strategy and setting and reviewing environmental objectives and targets, which are implemented by our staff. The company will ensure that resources are made available for the implementation and maintenance of our Environmental Management System, which now forms part of our integrated Stadium Management System.

This Environmental Policy is available to all staff, contractors, suppliers and to the public.

Signed:.....  
Roger Maslin, Managing Director, Wembley National Stadium Limited
